

Boilermaker

Australian Exploration Engineering is a key player in the Australian drilling market, specialising in the design, manufacture and refurbishment of exploration drill rigs and associated equipment.

We are seeking to employ qualified boilermakers based at our current workshop in Redcliffe, with an upcoming purpose-built facility under construction in Forrestfield, expected to be operational in late 2022.

Your duties will include:

- Fabrication, including marking out, tacking, welding and finishing of jobs to a high standard.
- Use of various machine tools and hand tools during the manufacturing process.
- Must be able to interpret engineering drawings.
- Keep correct housekeeping in your work areas.
- Full time position with overtime as required.

Skills and experience:

- Trade qualified Boilermaker with great fabrications skills.
- Must be able to work in a fast-paced environment.
- Ability to work as part of a team.
- Additional skills, experience, tickets and licenses will be advantageous.
- Forklift ticket advantageous but not a necessity.
- Preference for applicants to be locally based.

What we offer in return:

- Competitive remuneration with the option to work salary or on penalty rates
- Relaxed workplace culture
- Flexible/family-friendly working hours
- Profit share incentive scheme
- Employee of the month awards
- Ability to attend social events
- Opportunity to further education and career development
